

OFF-THE-GRID AND ON-THE-GO

SCRIBBLEMONSTER'S

eco SHOW

Unplugged and entirely powered by

RENEWABLE ENERGY

with kid-generated ideas and light show!

Wind and solar energy currently account for 10% of the power generated in the U.S. and are projected to provide 50% of our nation's power by 2050. ScribbleMonster gets ahead of the curve by creating fun and a greener environment with a program 100% off-the-grid and able to go anywhere! Kids in attendance help generate ideas and power for the light show, while learning about different energy sources.

Also available as roving entertainment- perfect for festival lines!

Past Clients Include:

Sirius XM Radio
Taste of Chicago
University of Chicago

Acclaimed by the likes of National Public Radio and Parenting Magazine, ScribbleMonster's approach to music, learning and play has earned them a regular role on Sirius/XM's Kids Place Live, appearances at Lollapalooza, and literally millions of streams on Pandora, iTunes and Spotify. Jim and Jayne's background in music and special education makes them welcoming to all children, including those with special needs. ScribbleMonster's programs are aligned with Common Core Standards and STEAM initiatives for Early Childhood. Their positive male and female representation are ideal for a young audience.

"The personalities of ScribbleMonster relate and connect with young audiences using a mixture of kindness, music, and humor that inspires interaction."
